Shariq Mohammed

CURRICULUM VITAE

Department of Biostatistics
School of Public Health
Boston University
801 Massachusetts Avenue (CT303)
Boston, MA 02118

Email: shariqm@bu.edu
Phone: (617) 358-2682
Web: shariq-mohammed.github.io
Scholar: Google Scholar profile
ORCID: 0000-0002-3107-2969

ACADEMIC APPOINTMENTS

Boston University (BU), Boston, MA

Assistant Professor *Aug 2021–present*
Department of Biostatistics, School of Public Health (SPH)

Core Faculty *Oct 2026–present*
Center for Brain Recovery

Faculty Affiliate *Aug 2025–present*
Rafik B. Hariri Institute for Computing and Computational Science & Engineering

Rafik B. Hariri Junior Faculty Fellow *Aug 2022–Jul 2025*
Rafik B. Hariri Institute for Computing and Computational Science & Engineering

University of Michigan (U-M), Ann Arbor, MI

Postdoctoral Research Fellow *Sep 2018–Jul 2021*
Mentors: Veerabhadran Baladandayuthapani & Arvind Rao

Precision Health Scholar *Sep 2019–Jul 2021*

EDUCATION

University of Connecticut (UConn), Storrs, CT

Ph.D. in Statistics *Aug 2018*
Dissertation: *Bayesian variable selection with applications to neuroimaging data*
Advisors: Dipak K. Dey & Yuping Zhang

M.S. in Statistics *Sep 2017*

Chennai Mathematical Institute (CMI), Chennai, India

M.Sc. in Applications of Mathematics *May 2014*

Indian Statistical Institute (ISI), Bangalore, India

B.Math. (Hons.) *Jun 2012*

PRIOR RESEARCH EXPERIENCE

The Travelers Companies, Hartford, CT
Research Assistant *Aug 2016–Aug 2018*

University of Connecticut, Storrs, CT
Graduate/Research Assistant *Aug 2016–Aug 2017*

Pfizer Inc., Boston, MA
Summer Student Worker *Summer 2016*

Tata Consultancy Services, Innovation Labs, Hyderabad, India
Research Intern *Summer 2013*

RESEARCH INTERESTS

Methodology: Bayesian hierarchical modeling and variable selection; spatial and spatio-temporal statistics; functional and geometric data analysis; integrative analysis of multi-modal data; network-based modeling of complex data

Applications: Alzheimer's disease and related dementias (ADRD); digital cognitive assessments; neuropsychology; spatial omics; biomedical imaging and radiogenomics; population health and community well-being

RESEARCH FUNDING

Current Funding

Down Syndrome Toward Optimal Trajectories and Health using Medicaid Analytic eXtract (DS-TO-THE-MAX)
NIH/NIA, R01AG073179 *Sep 2026–Aug 2031*
Role: Co-Investigator (PI: Eric Rubenstein)
Total costs: $4,109,950

Scalable software engineering and methods for large-scale subcellular spatial omics
NIH/NHGRI, R01HG014487 *Sep 2025–Aug 2029*
Role: Co-Investigator / BU Site PI (PI: Ruben Dries)
Total costs: $3,371,645; BU subaward: $523,243
Scored in the 1st percentile on initial submission

Network biomarkers for early detection of cognitive impairment using digital clock drawings
NIH/NIA, R03AG098551 *Jan 2026–Dec 2027*
Role: Principal Investigator
Total costs: $323,825
Scored in the 2nd percentile on initial submission

Removing batch effects in high-throughput biomedical studies
NIH/NIGMS, R01GM127430 *Sep 2023–Aug 2027*
Role: Co-Investigator (PI: William E. Johnson)
Total costs: $1,151,799

Completed Funding

Longitudinal Risk Factor Changes and Early Recognition of Cerebral Small Vessel Disease
NIH/NINDS, R21NS135268 *Sep 2023–Aug 2026*
Role: Co-Investigator (PI: Jose R. Romero)
Total costs: $453,750

Mapping well-being and the social determinants of health
Sharecare, Inc., BU–Sharecare Contract *Nov 2021–Jul 2025*
Role: Co-Investigator (PI: Kimberly A. Dukes)

Predictive Utility of Pupillometry in Life-threatening Mass Effect: Management and Outcome Evaluation
BU Population Health Data Science Seed Award *Feb 2025–Jan 2026*
Role: Co-Investigator (PI: Charlene J. Ong)
Total costs: $5,000

Novel methods to detect spatially varying genes in spatial transcriptomics datasets
BU Population Health Data Science Seed Award *Feb 2024–Jan 2025*
Role: Principal Investigator
Total costs: $5,000

Developing novel digital neuropsychological test-based markers to quantify heterogeneity in participants' performance
Framingham Heart Study Brain Aging Program Pilot Award *Apr 2022–Mar 2023*
Role: Principal Investigator
Total costs: $25,000

Statistical modeling for topographic analysis of spatially resolved transcriptomics data
BU SPH Early Career Catalyst Award *Apr 2022–Aug 2023*
Role: Principal Investigator
Total costs: $19,782

Integrative decision models combining radiological-imaging and genotypic data in gliomas
U-M Precision Health Scholars Award *Sep 2019–Jul 2021*
Role: Principal Investigator
Total costs: $80,000

HONORS AND AWARDS

- *Rafik B. Hariri Junior Faculty Fellowship* ($20,000), Rafik B. Hariri Institute for Computing and Computational Science & Engineering, BU *2022–2025*
- *Precision Health Scholars Award* ($80,000), U-M *2019–2021*
- *Doctoral Dissertation Fellowship*, Graduate School, UConn *2018*
- *Doctoral Student Travel Award*, Graduate School, UConn *2017*
- *Multiple conference travel grants*, Department of Statistics, UConn *2017*
- *Pre-doctoral Dissertation Fellowship*, Department of Statistics, UConn *2016*
- *Matthew M. Goldstein Graduate Fellowship*, UConn *2015*
- *CMI Medal of Excellence* for outstanding performance in the M.Sc. in Applications of Mathematics program, CMI *2014*
- *Post-graduate Fellowship*, CMI *2012–2014*
- *INSPIRE Scholarship for Higher Education*, Ministry of Science & Technology, Government of India *2009–2014*
- *Undergraduate Fellowship*, ISI *2009–2012*

TALKS

Invited Talks

49. International Neuropsychological Society Annual Meeting, Boston, Massachusetts (Invited symposium). *Spatial organization of clock elements in the digital clock drawing test as features for cognitive impairment prediction* *Feb 2027*
48. Center for Brain Recovery Seminar, BU. *The shape of a clock: novel representations of digital clock drawing data for cognitive impairment prediction* *Sep 2026*
47. Joint Statistical Meetings, Boston, Massachusetts. *GASP: gradient-aware detection and localization of spatial patterns in gene expression* *Aug 2026*
46. Kyungpook National University, Statistics Seminar, Daegu, South Korea. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* *Jul 2026*
45. 33rd International Biometric Conference, Seoul, South Korea. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* *Jul 2026*
44. International Chinese Statistical Association China Conference, Shenzhen, China. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* *Jun 2026*
43. University of Massachusetts Amherst Statistics Seminar, Amherst, Massachusetts. *Borrowing structural information in Bayesian hierarchical models: applications to tumor imaging heterogeneity and geospatial well-being* *Apr 2026*
42. Framingham Heart Study–Brain Aging Program Seminar, BU. *Predicting cognitive impairment using novel functional features of spatial proximity and circularity in the digital clock drawing test* *Feb 2026*
41. BU Biostatistics Student Association Seminar, BU. *GitHub for R projects* *Apr 2025*
40. International Indian Statistical Association Annual Conference, Kochi, India. *Modeling well-being indices using ZIP code spatial neighborhoods under a Bayesian beta regression framework* *Dec 2024*
39. International Joint Conference on Computational and Financial Econometrics and Computational and Methodological Statistics (CFE–CMStatistics), London, United Kingdom.

Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging *Dec 2024*

38. Joint Statistical Meetings, Portland, Oregon (Topic-contributed). *GaWRDenMap: analyzing cell–cell interactions using spatial analysis and density functions to predict pancreatic disease subtypes* *Aug 2024*

37. Virginia Commonwealth University Biostatistics Seminar, Richmond, Virginia. *Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging* *Apr 2024*

36. Connecticut College Research Seminar, New London, Connecticut (Virtual). *Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging* *Apr 2024*

35. McGill University Biostatistics Seminar, Montreal, Canada (Virtual). *Quantifying imaging heterogeneity using density functions with applications in brain and pancreatic cancer imaging* *Mar 2024*

34. BU Biostatistics Student Association Seminar, BU. *GitHub for R projects* *Feb 2024*

33. Research on Tap on Health Data Science, Office of Research, BU. *Statistical methods for complex health data* *Nov 2023*

32. American Public Health Association Annual Meeting & Expo, Atlanta, Georgia (Roundtable session). *Modeling health and well-being measures by incorporating ZIP code spatial neighborhood patterns* *Nov 2023*

31. Federal University of Minas Gerais Mathematics and Statistics Seminar, Belo Horizonte, Brazil. *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* *Aug 2023*

30. A New Era of Statistical Science: A Special Conference in Honor of Prof. Dipak Dey's 70th Anniversary, Belo Horizonte, Brazil. *GaWRDenMap: analyzing cell–cell interactions using spatial analysis and density functions to predict pancreatic disease subtypes* *Aug 2023*

29. Pushing the Boundary of Data Science through Statistical Modeling and Inference, Blacksburg, Virginia. *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* *Jul 2023*

28. BU URBAN Research Methods Seminar, BU. *Modeling health and well-being measures by incorporating ZIP code spatial neighborhood patterns* *Apr 2023*

27. Framingham Heart Study–Brain Aging Program Seminar, BU. *Novel features from digital trail making and clock drawing tests for cognitive assessment* *Apr 2023*

26. BU Probability and Statistics Seminar, BU. *Layered variable selection for multivariate Bayesian regression using densities: a case study in imaging genomics* *Feb 2023*

25. International Indian Statistical Association Annual Conference, Bengaluru, India (Virtual). *Quantifying T2–FLAIR mismatch in gliomas using geographically weighted regression and density functions* *Dec 2022*

24. BU SPH Think. Teach. Do. Spotlight Talk, BU. *Statistical methods for complex health data* *Nov 2022*

23. International Conference on Statistical Distributions and Applications, Huntington, West Virginia (Virtual). *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* *Oct 2022*

22. BU Bioinformatics Seminar, BU. *Layered variable selection for multivariate Bayesian regression using densities: a case study in imaging genomics* *Oct 2022*

21. Royal Statistical Society International Conference 2022, Aberdeen, Scotland (Virtual). *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* *Sep 2022*

20. Joint Statistical Meetings, Washington, DC. *Density-based classification in diabetic retinopathy using retinal layer thickness from optical coherence tomography* *Aug 2022*

19. Joint Statistical Meetings, Washington, DC (Invited poster; SADM Best Paper Session). *Classification of high-dimensional EEG data with location selection using a structured spike-and-slab prior* *Aug 2022*

18. 22nd Meeting of New Researchers in Statistics and Probability, George Mason University, Fairfax, Virginia. *Quantifying T2–FLAIR mismatch in gliomas using geographically weighted regression and density functions* *Aug 2022*

17. 35th New England Statistics Symposium, UConn. *Quantifying T2–FLAIR mismatch in gliomas using geographically weighted regression and density functions* *May 2022*

16. BU Epidemiology Seminar, BU. *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* *Mar 2022*

15. Tech Talks 1.0, Student's Association of Artificial Intelligence and Data Science, G H Raisoni College of Engineering and Management, Pune, India (Virtual). *Computational biostatistics and biomedical imaging data analysis* *Feb 2022*

14. The Fifth Eastern Asia Chapter—International Society for Bayesian Analysis Conference: Satellite Meeting of the 2020 ISBA World Meeting to Celebrate James O. Berger's 70th Birthday (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Nov 2021*

13. BU Biostatistics Student Association Seminar, BU. *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Nov 2021*

12. Joint Statistical Meetings (Virtual). *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* *Aug 2021*

11. Center for Computational Mathematics Seminar, Flatiron Institute, Simons Foundation, New York (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Jun 2021*
10. Statistical Methods in Imaging Conference (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *May 2021*
9. ENAR Spring Meeting (Virtual). *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* *Mar 2021*
8. Precision Health Seminar (Pharmacy 217), U-M (Virtual). *Density-based classification using images: application to diabetic retinopathy* *Feb 2021*
7. U-M Precision Health Symposium (Virtual; Invited poster). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging via densities* *Aug 2020*
6. Joint Statistical Meetings (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Aug 2020*
5. Michigan Institute for Data Science (MIDAS) COVID-19 Special Seminar Series, U-M (Group presentation). *Understanding COVID-19 dynamics via individual-level temporal and network modeling: lessons from India and China* *Jun 2020*
4. Precision Health Seminar (Pharmacy 217), U-M. *Integrative statistical modeling approaches for imaging genomics data* *Mar 2020*
3. Tools and Technology Seminar, U-M. *Integrative statistical modeling approaches for imaging genomics data* *Mar 2020*
2. ENAR Spring Meeting, Nashville, Tennessee (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Mar 2020*
1. International Indian Statistical Association Annual Conference, Mumbai, India. *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* *Dec 2019*

Invited Panels and Workshops

4. ASA Biopharmaceutical Section Regulatory–Industry Statistics Workshop, Rockville, Maryland (Panelist). Panel: *Designing clinical trials in neuroscience: when a statistician, a machine learning researcher, and a neuroscientist walk into a bar*; presentation: *Digital neuropsychology, complex data, and the future of clinical trials* *Sep 2025*
3. Advanced Research Institute (ARI) in Mental Health and Aging Spring Retreat, Winston-Salem, North Carolina (Invited participant). *Apr 2022*
2. Department of Biostatistics, BU (Panel). *Biostatistics career development panel: "Academic career path"* *Oct 2021*

1. NMIMS Sunandan Divatia School of Science (Virtual). *StatChat 2020: panel discussions with undergraduate and master's students on career and academic perspectives in statistics and data science* *Aug and Sep 2020*

Contributed Talks

12. Digital Cognitive Data Consortium, BU. *Predicting cognitive impairment using novel digital drawing features* *May 2026*
11. 65th ISI World Statistics Congress, The Hague, Netherlands. *Bayesian double generalized beta regression for ZIP code-level well-being assessment* *Oct 2025*
10. Symposium on Data Science and Statistics, Salt Lake City, Utah. *Modeling well-being using ZIP code spatial neighborhood structure in Bayesian beta regression* *Apr 2025*
9. BU Department of Biostatistics Research Blitz, BU. *Statistical and machine learning methods for complex data applications* *Mar 2023*
8. BU Department of Biostatistics Research Blitz, BU. *Statistical methods for biomedical imaging and digital data analysis* *Mar 2022*
7. ENAR Spring Meeting, Philadelphia, Pennsylvania. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* *Mar 2019*
6. Joint Statistical Meetings, Vancouver, Canada. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* *Jul 2018*
5. Symposium on Data Science and Statistics, Reston, Virginia. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* *May 2018*
4. Bayes Comp 2018, Barcelona, Spain (Poster). *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* *Mar 2018*
3. International Indian Statistical Association Annual Conference, Hyderabad, India. *Bayesian variable selection using spike-and-slab prior for EEG analysis* *Dec 2017*
2. 34th Quality and Productivity Research Conference, UConn. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* *Jun 2017*
1. 31st New England Statistics Symposium, UConn. *Modeling of large insurance claims and occurrence data* (joint with Aritra Halder) *Apr 2017*

TEACHING

Instructor, Boston University

- *SPH BS 755*: Theory of Linear Models in Biostatistics *Fall 2025, Fall 2026*
- *SPH PH 845*: Integrated Learning Experience (faculty advisor) *Every fall, 2022–2026*
- *SPH BS 704*: Introduction to Biostatistics *Fall 2025*
- *SPH BS 901*: Directed Studies in Biostatistics *Fall 2025*

- *CAS MA 575 / SPH BS 755*: Linear Models *Fall 2023, Fall 2024*
- *SPH BS 800*: Accelerated Statistical Training (co-instructor) *Fall 2024*
- *SPH BS 730*: Introduction to `R`: Software for Statistical Computing *Spring 2022*

Instructor, University of Connecticut

- *STAT 3025Q*: Statistical Methods *Summer 2017, Fall 2017*

Short Courses and Workshops

- *Computational Biostatistics and Survival Analysis*, Tata Memorial Centre, Navi Mumbai, India (with Bhramar Mukherjee; course materials) *Dec 2019*
- *Data Visualization with R Shiny*, UConn *Apr 2018*

Teaching Assistant

- *Introduction to Statistics I & II*; *Introduction to Mathematical Statistics I & II*, Department of Statistics, UConn *Fall 2014–Spring 2016*
- *Numerical Linear Algebra*; *Probability Theory*, CMI *Spring 2013, Fall 2013*

STUDENT RESEARCH MENTORING

Doctoral Advisees

- Daniel Cho, PhD Biostatistics (Research Analyst; 2025–2026) *2026–present*
- Jordan Ahn, PhD Biostatistics *2025–present*
- Abhi Jain, PhD Biostatistics (dissertation co-advisor: Sara Lodi; research assistantship co-advisor: Kimberly Dukes) *2022–present*
  - *ENAR Distinguished Student Paper Award* *2026*
- Adlin Pinheiro, PhD Biostatistics *2022–present*
  - *BU SPH Pre-doctoral Research Ignition Award* *2022–2023*
  - *ENAR Regional Advisory Board (RAB) Poster Award* *2025*
  - *BU SPH Academic Travel Award* *2025*
  - *Alzheimer's Association International Conference Fellowship* *2025*
- Garrett Frady, PhD Statistics, UConn (co-advisor: Dipak K. Dey) *Graduated 2024*
  - Placement: *Mathematical Statistician, U.S. Food and Drug Administration*

Doctoral Dissertation Committees (PhD Biostatistics, BU)

Current: Sophia Lu (2026–present), Jingxian Tang (2026–present)

Graduated: Evelyn Lauren (2026), Genevieve Dupuis (2026), Daniel Kojis (2026), Anne Shapiro (2026), Nimish Adhikari (2026), Jianing Wang (2023)

Master's Advisees

- Lin Tang, MS Biostatistics (Research Associate; joint with Huimin Cheng) *2026–present*
- Jude Sleiman, MPH *2024–2025*
  - Placement: *City Research Scientist II, Health Strategy Division, New York City Office of Labor Relations*
- Xiaohang Zhang, MS Biostatistics *2024–2025*
- John Cannon, MS Biostatistics *2022–2025*
- Yinzhu Piao, MA Statistics *2022–2024*
- Aaron Morris, MS Applied Biostatistics *Spring 2023*
- Kim-Judy You, MS Applied Biostatistics *Spring 2022*
- Tianxiang Sheng, MS Applied Biostatistics *Spring 2022*
  - Placement: *Biostatistician I, Department of Population Health Science and Policy, Mount Sinai*

Master's Thesis Committees

- Marla Babilonia Beltran, MS Medical Science *2026–2027*

SERVICE & LEADERSHIP

Professional Service

Editorial

- *Editorial Board Member*, Scientific Reports *2026–present*
- *Associate Editor*, Sankhyā B: The Indian Journal of Statistics (Official Journal of Indian Statistical Institute) *2023–present*

Professional Societies

- *Assistant Executive Administrator*, International Indian Statistical Association (IISA) *2026–present*
- *Vice-President*, Conferences Committee, New England Statistics Society (NESS) *2024–present*
- *Founding Co-Organizer*, IISA Statistics and Data Science Innovations Webinar Series *2022*
- *Member*, Membership & Outreach Committee, IISA *2020–2022*

Conference Organization

- *Member*, Conference Advisory Committee, New England Statistics Symposium *2025*
- *Member*, Program Committee, New England Statistics Symposium *2024*
- *Member*, Scientific Organizing Committee, Red Rock Data Science Student Conference, Southern Utah University *2024*
- *Co-Chair*, Organizing Committee, New England Statistics Symposium (host: Boston University) *2022–2023*
- *Co-Vice President for Scientific Program*, New England Statistics Symposium *2022–2023*
- *Member*, Organizing Committee, *Pushing the Boundary of Data Science through Statistical Modeling and Inference* (Conference in honor of Dipak K. Dey), Virginia Tech *2022–2023*
- *Member*, Student Research Awards Committee, New England Statistics Symposium *2022*
- *Vice-Chair* of Student Committee, New England Statistics Symposium *2017*
- *Organizer (Invited Sessions)*: Joint Statistical Meetings (JSM) 2020; ENAR Spring Meeting 2021; JSM 2021; NESS 2022; JSM 2022; IISA Annual Conference 2022; JSM 2023; NESS 2024; International Biometric Conference (IBC) 2026 *2020–present*

Grant, Award, and Abstract Review

- *Reviewer*, Student Paper Competition, American Statistical Association Section on Bayesian Statistical Science (SBSS) *2024–present*
- *Reviewer*, American Public Health Association Annual Meeting *2024–present*
- *Reviewer*, Framingham Heart Study Brain Aging Program Pilot Awards *2024*
- *Reviewer*, Grant Review and Mock Study Section, ARI (funded by NIMH) *2022, 2024*

Journal Review

- *Ad-hoc Reviewer (Statistics/Biostatistics Journals)*: Annals of Applied Statistics; Bayesian Analysis; Biometrics; Biostatistics; Communications in Statistics – Theory and Methods; Harvard Data Science Review; Journal of Applied Statistics; The New England Journal of Statistics in Data Science; Sankhyā B; Spatial Statistics; STAT; Statistics and Data Science in Imaging *2019–present*
- *Ad-hoc Reviewer (Interdisciplinary Journals):* Advances in Biomarker Sciences and Technology; Bioinformatics; Clinical Cancer Informatics; Epidemiology; Frontiers in Digital Health; Journal of the American Heart Association; Journal of the American Medical Informatics Association; Scandinavian Actuarial Journal *2019–present*

University Service

Boston University: Department of Biostatistics

- *Reviewer*, BU Biostatistics Student Paper Competition *2025–present*
- *Member*, Biostatistics Qualifying Exam Committee *2024–present*
- *Co-Organizer*, Biostatistics Department Seminar Series *2021–present*

Boston University: School of Public Health

- *Member*, Environmental Health Doctoral Exam Committee *2026*
- *Member*, Environmental Health Faculty Search Committee *2022–2023*

Boston University: University-wide

- *Member*, Graduate Student Fellow Awards Committee, Rafik B. Hariri Institute for Computing and Computational Science & Engineering *2023*

University of Connecticut

- *Advisor / President / Treasurer*, Tarang (South Asian cultural organization) *2015–2018*
- *Vice-President*, Statistics Graduate Student Committee *2016–2017*
- *Co-President*, Statistics Graduate Student Committee *2015–2016*
- *Senator*, Graduate Student Senate *2015–2016*
- *Student Representative*, Senate Faculty Standards Committee *2015–2016*
