

Shariq Mohammed

CURRICULUM VITAE

Department of Biostatistics
School of Public Health
Boston University
801 Massachusetts Avenue (CT303)
Boston, MA 02118

Email: shariqm@bu.edu
Phone: (617) 358-2682
Web: shariq-mohammed.github.io
Scholar: [Google Scholar profile](#)
ORCID: [0000-0002-3107-2969](#)

ACADEMIC APPOINTMENTS

Boston University (BU), Boston, MA

Assistant Professor *Aug 2021–present*

Department of Biostatistics, School of Public Health (SPH)

Core Faculty *Oct 2026–present*

Center for Brain Recovery

Faculty Affiliate *Aug 2025–present*

Rafik B. Hariri Institute for Computing and Computational Science & Engineering

Rafik B. Hariri Junior Faculty Fellow *Aug 2022–Jul 2025*

Rafik B. Hariri Institute for Computing and Computational Science & Engineering

University of Michigan (U-M), Ann Arbor, MI

Postdoctoral Research Fellow *Sep 2018–Jul 2021*

Mentors: Veerabhadran Baladandayuthapani & Arvind Rao

Precision Health Scholar *Sep 2019–Jul 2021*

EDUCATION

University of Connecticut (UConn), Storrs, CT

Ph.D. in Statistics *Aug 2018*

Dissertation: *Bayesian variable selection with applications to neuroimaging data*

Advisors: Dipak K. Dey & Yuping Zhang

M.S. in Statistics *Sep 2017*

Chennai Mathematical Institute (CMI), Chennai, India

M.Sc. in Applications of Mathematics *May 2014*

Indian Statistical Institute (ISI), Bangalore, India

B.Math. (Hons.) *Jun 2012*

PRIOR RESEARCH EXPERIENCE

The Travelers Companies, Hartford, CT

Research Assistant

Aug 2016–Aug 2018

University of Connecticut, Storrs, CT

Graduate/Research Assistant

Aug 2016–Aug 2017

Pfizer Inc., Boston, MA

Summer Student Worker

Summer 2016

Tata Consultancy Services, Innovation Labs, Hyderabad, India

Research Intern

Summer 2013

RESEARCH INTERESTS

Methodology: Bayesian hierarchical modeling and variable selection; spatial and spatio-temporal statistics; functional and geometric data analysis; integrative analysis of multi-modal data; network-based modeling of complex data

Applications: Alzheimer's disease and related dementias (ADRD); digital cognitive assessments; neuropsychology; spatial omics; biomedical imaging and radiogenomics; population health and community well-being

RESEARCH FUNDING

Extramural Funding

Down Syndrome Toward Optimal Trajectories and Health using Medicaid Analytic eXtract (DS-TO-THE-MAX)

NIH/NIA, R01AG073179

Sep 2026–Aug 2031

Role: Co-Investigator (PI: Eric Rubenstein)

Total costs: \$4,109,950

Scalable software engineering and methods for large-scale subcellular spatial omics

NIH/NHGRI, R01HG014487

Sep 2025–Aug 2029

Role: Co-Investigator / BU Site PI (PI: Ruben Dries)

Total costs: \$3,371,645; BU subaward: \$523,243

Scored in the 1st percentile on initial submission

Network biomarkers for early detection of cognitive impairment using digital clock drawings

NIH/NIA, R03AG098551

Jan 2026–Dec 2027

Role: Principal Investigator

Total costs: \$323,825

Scored in the 2nd percentile on initial submission

Removing batch effects in high-throughput biomedical studies

NIH/NIGMS, R01GM127430

Sep 2023–Aug 2027

Role: Co-Investigator (PI: William E. Johnson)

Total costs: \$1,151,799

Longitudinal Risk Factor Changes and Early Recognition of Cerebral Small Vessel Disease

NIH/NINDS, R21NS135268

Sep 2023–Aug 2026

Role: Co-Investigator (PI: Jose R. Romero)

Total costs: \$453,750

Mapping well-being and the social determinants of health

Sharecare, Inc., BU–Sharecare Contract

Nov 2021–Jul 2025

Role: Co-Investigator (PI: Kimberly A. Dukes)

Total costs: **[amount]**

Institutional & Seed Funding

Predictive Utility of Pupillometry in Life-threatening Mass Effect: Management and Outcome Evaluation

BU Population Health Data Science Seed Award

Feb 2025–Jan 2026

Role: Co-Investigator (PI: Charlene J. Ong)

Total costs: \$5,000

Novel methods to detect spatially varying genes in spatial transcriptomics datasets

BU Population Health Data Science Seed Award

Feb 2024–Jan 2025

Role: Principal Investigator

Total costs: \$5,000

Developing novel digital neuropsychological test-based markers to quantify heterogeneity in participants' performance

Framingham Heart Study Brain Aging Program Pilot Award

Apr 2022–Mar 2023

Role: Principal Investigator

Total costs: \$25,000

Statistical modeling for topographic analysis of spatially resolved transcriptomics data

BU SPH Early Career Catalyst Award

Apr 2022–Aug 2023

Role: Principal Investigator

Total costs: \$19,782

Integrative decision models combining radiological-imaging and genotypic data in gliomas

U-M Precision Health Scholars Award

Sep 2019–Jul 2021

Role: Principal Investigator

Total costs: \$80,000

HONORS AND AWARDS

- *Rafik B. Hariri Junior Faculty Fellowship* (\$20,000), Rafik B. Hariri Institute for Computing and Computational Science & Engineering, BU 2022–2025
- *Precision Health Scholars Award* (\$80,000), U-M 2019–2021
- *Doctoral Dissertation Fellowship*, Graduate School, UConn 2018
- *Doctoral Student Travel Award*, Graduate School, UConn 2017
- *Multiple conference travel grants*, Department of Statistics, UConn 2017
- *Pre-doctoral Dissertation Fellowship*, Department of Statistics, UConn 2016
- *Matthew M. Goldstein Graduate Fellowship*, UConn 2015
- *CMI Medal of Excellence* for outstanding performance in the M.Sc. in Applications of Mathematics program, CMI 2014
- *Post-graduate Fellowship*, CMI 2012–2014
- *INSPIRE Scholarship for Higher Education*, Ministry of Science & Technology, Government of India 2009–2014
- *Undergraduate Fellowship*, ISI 2009–2012

Preprint: [doi:10.64898/2026.03.14.26348336](https://doi.org/10.64898/2026.03.14.26348336)
Award: ENAR Regional Advisory Board Poster Award to Adlin Pinheiro (2025)
 1. Romero, J.R., Pinheiro, A., Demissie, S., Aparicio, H.J., Lioutas, V., Charidimou, A., Beiser, A.S., Ekenze, O., Himali, J.J., DeCarli, C., Seshadri, S., and **Mohammed, S.** (2026). Lifelong trajectories of modifiable vascular risk factors and relation to cerebral small vessel disease in the Framingham Heart Study. Under review. Preprint: [doi:10.64898/2026.01.16.26344309](https://doi.org/10.64898/2026.01.16.26344309)

In Preparation

7. GASP: Gradient-aware analysis of spatial patterns in gene expression.
6. ClockTraceR: A comprehensive framework and software for feature extraction and prediction using data from digital clock drawing test.
5. Heterogeneous causal effects with continuous treatments under the presence of interference.
4. Spatial patterns of well-being in six U.S. States: A ZIP Code-level study using driving-time neighborhoods.
3. Joint BART model with latent factors for causal inference in cluster observational studies with unmeasured cluster-level spatial confounding.
2. Validation using non-representative ground truth data: application to record linkage.
1. Sex-specific Relations of life-long lipid level trajectories and risk of Incident Dementia

SOFTWARE

Open-Source R Packages on GitHub

- [BayesBadger](#): Spatio-temporal beta regression (Journal Article 31) 2026
- [clocknet](#): Spatial networks from digital clock drawings (Submitted Manuscript 6) 2026
- [marbles](#): Multivariate Bayesian layered variable selection (Journal Article 20) 2022
- [scalableBayesEEG](#): Scalable spatio-temporal EEG analysis (Journal Article 8) 2020
- [stSpikeSlabEEG](#): Structured spike-and-slab EEG classification (Journal Article 4) 2020
- [RADIOHEAD](#): Tumor-heterogeneity radiogenomics (Journal Article 9) 2019
- [SpikeSlabEEG](#): Spike-and-slab variable selection for EEG data (Journal Article 2) 2019

TEACHING

Instructor, Boston University

- *SPH BS 755: Theory of Linear Models in Biostatistics* *Fall 2025, Fall 2026*
- *SPH BS 704: Introduction to Biostatistics* *Fall 2025*
- *SPH BS 901: Directed Studies in Biostatistics* *Fall 2025*
- *CAS MA 575 / SPH BS 755: Linear Models* *Fall 2023, Fall 2024*
- *SPH BS 800: Accelerated Statistical Training* *Summer 2024*
- *SPH BS 730: Introduction to R: Software for Statistical Computing* *Spring 2022*

Instructor, University of Connecticut

- *STAT 3025Q: Statistical Methods* *Summer 2017, Fall 2017*

Short Courses and Workshops

- *Computational Biostatistics and Survival Analysis*, Tata Memorial Centre, Navi Mumbai, India (with Bhramar Mukherjee; [course materials](#)) *Dec 2019*
- *Data Visualization with R Shiny*, UConn *Apr 2018*

Teaching Assistant

- *Introduction to Statistics I & II; Introduction to Mathematical Statistics I & II*, Department of Statistics, UConn *Fall 2014–Spring 2016*
- *Numerical Linear Algebra; Probability Theory*, CMI *Spring 2013, Fall 2013*

STUDENT RESEARCH MENTORING

Doctoral Advisees

- Jordan Ahn, PhD Biostatistics *2025–present*
- Abhi Jain, PhD Biostatistics (dissertation co-advisor: Sara Lodi; research assistantship co-advisor: Kimberly Dukes) *2022–present*
 - *ENAR Distinguished Student Paper Award* *2026*
- Adlin Pinheiro, PhD Biostatistics *2022–present*
 - *BU SPH Pre-doctoral Research Ignition Award* *2022–2023*
 - *ENAR Regional Advisory Board (RAB) Poster Award* *2025*
 - *BU SPH Academic Travel Award* *2025*
 - *Alzheimer's Association International Conference Fellowship* *2025*
- Garrett Frady, PhD Statistics, UConn (co-advisor: Dipak K. Dey) *Graduated 2024*
 - Placement: *Mathematical Statistician, U.S. Food and Drug Administration*

Doctoral Dissertation Committees (PhD Biostatistics)

Current: Sophia Lu (2026–present), Jingxian Tang (2026–present)

Graduated: Evelyn Lauren (2026), Genevieve Dupuis (2026), Daniel Kojis (2026), Anne Shapiro (2026), Nimish Adhikari (2026), Jianing Wang (2023)

Research Associate/Analyst

- Lin Tang, MS Biostatistics (joint with Huimin Cheng) 2026–present
- Daniel Cho, PhD Biostatistics 2025–present

Master’s Advisees

- Jude Sleiman, MPH 2024–2025
 - Placement: *City Research Scientist II, Health Strategy Division, New York City Office of Labor Relations*
- Xiaohang Zhang, MS Biostatistics 2024–2025
- John Cannon, MS Biostatistics 2022–2025
- Yinzhu Piao, MA Statistics 2022–2024
- Aaron Morris, MS Applied Biostatistics Spring 2023
- Kim-Judy You, MS Applied Biostatistics Spring 2022
- Tianxiang Sheng, MS Applied Biostatistics Spring 2022
 - Placement: *Biostatistician I, Department of Population Health Science and Policy, Mount Sinai*

MPH Integrated Learning Experience Advisees

- Jadon Demeritte, MacClement Guthrie, Romario Joseph, Deirdre Otoo, Neelsha Parekh Fall 2026
- Claudia Cheng, Anna Flynn, Lea Hur, Peijie Qiu Fall 2025
- Rishi Chigurupati, Cameron Pettinato, Morgan Powell, Katharine Reisdorf Fall 2024
- Alyssa Santoso, Olivia Seestadt Fall 2023
- Xinyi Du, Ian Hussain, Ziran Li, Shannon Mahowald, Alyson Speshock Fall 2022

TALKS

Invited Talks

49. Center for Brain Recovery Seminar, BU. *The shape of a clock: novel representations of digital clock drawing data for cognitive impairment prediction* Sep 2026
48. Joint Statistical Meetings, Boston, Massachusetts. *GASP: gradient-aware detection and localization of spatial patterns in gene expression* Aug 2026

47. Kyungpook National University, Statistics Seminar, Daegu, South Korea. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* Jul 2026
46. 33rd International Biometric Conference, Seoul, South Korea. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* Jul 2026
45. International Chinese Statistical Association China Conference, Shenzhen, China. *Modeling bounded well-being indices with Bayesian double generalized beta regression and spatial & temporal borrowing* Jun 2026
44. University of Massachusetts Amherst Statistics Seminar, Amherst, Massachusetts. *Borrowing structural information in Bayesian hierarchical models: applications to tumor imaging heterogeneity and geospatial well-being* Apr 2026
43. Framingham Heart Study–Brain Aging Program Seminar, BU. *Predicting cognitive impairment using novel functional features of spatial proximity and circularity in the digital clock drawing test* Feb 2026
42. ASA Biopharmaceutical Section Regulatory–Industry Statistics Workshop, Rockville, Maryland. *Digital neuropsychology, complex data, and the future of clinical trials* Sep 2025
41. BU Biostatistics Student Association Seminar, BU. *GitHub for R projects* Apr 2025
40. International Indian Statistical Association Annual Conference, Kochi, India. *Modeling well-being indices using ZIP code spatial neighborhoods under a Bayesian beta regression framework* Dec 2024
39. International Joint Conference on Computational and Financial Econometrics and Computational and Methodological Statistics (CFE–CMStatistics), London, United Kingdom. *Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging* Dec 2024
38. Joint Statistical Meetings, Portland, Oregon (Topic-contributed). *GaWRDenMap: analyzing cell–cell interactions using spatial analysis and density functions to predict pancreatic disease subtypes* Aug 2024
37. Virginia Commonwealth University Biostatistics Seminar, Richmond, Virginia. *Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging* Apr 2024
36. Connecticut College Research Seminar, New London, Connecticut (Virtual). *Quantifying imaging heterogeneity via density functions with applications in brain and pancreatic cancer imaging* Apr 2024

35. McGill University Biostatistics Seminar, Montreal, Canada (Virtual). *Quantifying imaging heterogeneity using density functions with applications in brain and pancreatic cancer imaging* Mar 2024
34. BU Biostatistics Student Association Seminar, BU. *GitHub for R projects* Feb 2024
33. Research on Tap on Health Data Science, Office of Research, BU. *Statistical methods for complex health data* Nov 2023
32. American Public Health Association Annual Meeting & Expo, Atlanta, Georgia (Roundtable session). *Modeling health and well-being measures by incorporating ZIP code spatial neighborhood patterns* Nov 2023
31. Federal University of Minas Gerais Mathematics and Statistics Seminar, Belo Horizonte, Brazil. *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* Aug 2023
30. A New Era of Statistical Science: A Special Conference in Honor of Prof. Dipak Dey’s 70th Anniversary, Belo Horizonte, Brazil. *GaWRDenMap: analyzing cell–cell interactions using spatial analysis and density functions to predict pancreatic disease subtypes* Aug 2023
29. Pushing the Boundary of Data Science through Statistical Modeling and Inference, Blacksburg, Virginia. *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* Jul 2023
28. BU URBAN Research Methods Seminar, BU. *Modeling health and well-being measures by incorporating ZIP code spatial neighborhood patterns* Apr 2023
27. Framingham Heart Study–Brain Aging Program Seminar, BU. *Novel features from digital trail making and clock drawing tests for cognitive assessment* Apr 2023
26. BU Probability and Statistics Seminar, BU. *Layered variable selection for multivariate Bayesian regression using densities: a case study in imaging genomics* Feb 2023
25. International Indian Statistical Association Annual Conference, Bengaluru, India (Virtual). *Quantifying T2–FLAIR mismatch in gliomas using geographically weighted regression and density functions* Dec 2022
24. BU SPH Think. Teach. Do. Spotlight Talk, BU. *Statistical methods for complex health data* Nov 2022
23. International Conference on Statistical Distributions and Applications, Huntington, West Virginia (Virtual). *Layered variable selection for multivariate Bayesian regression with density function–based features: a case study in imaging genomics* Oct 2022
22. BU Bioinformatics Seminar, BU. *Layered variable selection for multivariate Bayesian regression using densities: a case study in imaging genomics* Oct 2022

21. Royal Statistical Society International Conference 2022, Aberdeen, Scotland (Virtual). *Layered variable selection for multivariate Bayesian regression with density function-based features: a case study in imaging genomics* Sep 2022
20. Joint Statistical Meetings, Washington, DC. *Density-based classification in diabetic retinopathy using retinal layer thickness from optical coherence tomography* Aug 2022
19. Joint Statistical Meetings, Washington, DC (Invited poster; SADM Best Paper Session). *Classification of high-dimensional EEG data with location selection using a structured spike-and-slab prior* Aug 2022
18. 22nd Meeting of New Researchers in Statistics and Probability, George Mason University, Fairfax, Virginia. *Quantifying T2-FLAIR mismatch in gliomas using geographically weighted regression and density functions* Aug 2022
17. 35th New England Statistics Symposium, UConn. *Quantifying T2-FLAIR mismatch in gliomas using geographically weighted regression and density functions* May 2022
16. BU Epidemiology Seminar, BU. *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* Mar 2022
15. Tech Talks 1.0, Student's Association of Artificial Intelligence and Data Science, G H Raisoni College of Engineering and Management, Pune, India (Virtual). *Computational biostatistics and biomedical imaging data analysis* Feb 2022
14. The Fifth Eastern Asia Chapter—International Society for Bayesian Analysis Conference: Satellite Meeting of the 2020 ISBA World Meeting to Celebrate James O. Berger's 70th Birthday (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Nov 2021
13. BU Biostatistics Student Association Seminar, BU. *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Nov 2021
12. Joint Statistical Meetings (Virtual). *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* Aug 2021
11. Center for Computational Mathematics Seminar, Flatiron Institute, Simons Foundation, New York (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Jun 2021
10. Statistical Methods in Imaging Conference (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* May 2021
9. ENAR Spring Meeting (Virtual). *Layered variable selection for multivariate Bayesian regression: a case study in imaging genomics* Mar 2021
8. Precision Health Seminar (Pharmacy 217), U-M (Virtual). *Density-based classification using images: application to diabetic retinopathy* Feb 2021

7. U-M Precision Health Symposium (Virtual; Invited poster). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging via densities* Aug 2020
6. Joint Statistical Meetings (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Aug 2020
5. Michigan Institute for Data Science (MIDAS) COVID-19 Special Seminar Series, U-M (Group presentation). *Understanding COVID-19 dynamics via individual-level temporal and network modeling: lessons from India and China* Jun 2020
4. Precision Health Seminar (Pharmacy 217), U-M. *Integrative statistical modeling approaches for imaging genomics data* Mar 2020
3. Tools and Technology Seminar, U-M. *Integrative statistical modeling approaches for imaging genomics data* Mar 2020
2. ENAR Spring Meeting, Nashville, Tennessee (Virtual). *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Mar 2020
1. International Indian Statistical Association Annual Conference, Mumbai, India. *RADIOHEAD: radiogenomic analysis incorporating tumor heterogeneity in imaging through densities* Dec 2019

Invited Panels and Workshops

3. Advanced Research Institute (ARI) in Mental Health and Aging Spring Retreat, Winston-Salem, North Carolina (Invited participant). Apr 2022
2. Department of Biostatistics, BU (Panel). *Biostatistics career development panel: "Academic career path"* Oct 2021
1. NMIMS Sunandan Divatia School of Science (Virtual). *StatChat 2020: panel discussions with undergraduate and master's students on career and academic perspectives in statistics and data science* Aug and Sep 2020

Contributed Talks

12. Digital Cognitive Data Consortium, BU. *Predicting cognitive impairment using novel digital drawing features* May 2026
11. 65th ISI World Statistics Congress, The Hague, Netherlands. *Bayesian double generalized beta regression for ZIP code-level well-being assessment* Oct 2025
10. Symposium on Data Science and Statistics, Salt Lake City, Utah. *Modeling well-being using ZIP code spatial neighborhood structure in Bayesian beta regression* Apr 2025
9. BU Department of Biostatistics Research Blitz, BU. *Statistical and machine learning methods for complex data applications* Mar 2023

8. BU Department of Biostatistics Research Blitz, BU. *Statistical methods for biomedical imaging and digital data analysis* Mar 2022
7. ENAR Spring Meeting, Philadelphia, Pennsylvania. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* Mar 2019
6. Joint Statistical Meetings, Vancouver, Canada. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* Jul 2018
5. Symposium on Data Science and Statistics, Reston, Virginia. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* May 2018
4. Bayes Comp 2018, Barcelona, Spain (Poster). *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* Mar 2018
3. International Indian Statistical Association Annual Conference, Hyderabad, India. *Bayesian variable selection using spike-and-slab prior for EEG analysis* Dec 2017
2. 34th Quality and Productivity Research Conference, UConn. *Bayesian variable selection using spike-and-slab prior with application to high-dimensional EEG data* Jun 2017
1. 31st New England Statistics Symposium, UConn. *Modeling of large insurance claims and occurrence data* (joint with Aritra Halder) Apr 2017

SERVICE & LEADERSHIP

Professional Service

Editorial

- *Editorial Board Member*, Scientific Reports 2026–present
- *Associate Editor*, Sankhyā B: The Indian Journal of Statistics (Official Journal of Indian Statistical Institute) 2023–present

Professional Societies

- *Assistant Executive Administrator*, International Indian Statistical Association (IISA) 2026–present
- *Vice-President*, Conferences Committee, New England Statistics Society (NESS) 2024–present
- *Founding Co-Organizer*, IISA Statistics and Data Science Innovations Webinar Series 2022
- *Member*, Membership & Outreach Committee, IISA 2020–2022

Conference Organization

- *Member*, Conference Advisory Committee, New England Statistics Symposium 2025
- *Member*, Program Committee, New England Statistics Symposium 2024

- *Member*, Scientific Organizing Committee, Red Rock Data Science Student Conference
2024
- *Co-Chair*, Organizing Committee, New England Statistics Symposium (host: Boston University)
2022–2023
- *Co-Vice President for Scientific Program*, New England Statistics Symposium
2022–2023
- *Member*, Organizing Committee, *Pushing the Boundary of Data Science through Statistical Modeling and Inference* (Conference in honor of Dipak K. Dey)
2022–2023
- *Member*, Student Research Awards Committee, New England Statistics Symposium
2022
- *Vice-Chair* of Student Committee, New England Statistics Symposium
2017
- *Organizer (Invited Sessions)*: Joint Statistical Meetings (JSM) 2020; ENAR Spring Meeting 2021; JSM 2021; NESS 2022; JSM 2022; IISA Annual Conference 2022; JSM 2023; NESS 2024; International Biometric Conference (IBC) 2026

Grant, Award, and Abstract Review

- *Reviewer*, Student Paper Competition, American Statistical Association Section on Bayesian Statistical Science (SBSS)
2024–present
- *Reviewer*, American Public Health Association Annual Meeting
2024–present
- *Reviewer*, Framingham Heart Study Brain Aging Program Pilot Awards
2024
- *Reviewer*, Grant Review and Mock Study Section, Advanced Research Institute
2022, 2024

Journal Review

- *Ad-hoc Reviewer (Statistics/Biostatistics Journals)*: Annals of Applied Statistics; Bayesian Analysis; Biometrics; Biostatistics; Communications in Statistics – Theory and Methods; Harvard Data Science Review; Journal of Applied Statistics; The New England Journal of Statistics in Data Science; Sankhyā B; Spatial Statistics; STAT; Statistics and Data Science in Imaging
- *Ad-hoc Reviewer (Interdisciplinary Journals)*: Advances in Biomarker Sciences and Technology; Bioinformatics; Clinical Cancer Informatics; Epidemiology; Frontiers in Digital Health; Journal of the American Heart Association; Journal of the American Medical Informatics Association; Scandinavian Actuarial Journal

University Service

Boston University: Department of Biostatistics

- *Reviewer*, BU Biostatistics Student Paper Competition
2025–present
- *Member*, Biostatistics Qualifying Exam Committee, BU
2024–present
- *Co-Organizer*, Biostatistics Department Seminar Series, BU
2021–present

Boston University: School of Public Health

- *Member*, Environmental Health Doctoral Exam Committee for Beverly Ge at BU 2026
- *Member*, Environmental Health Faculty Search Committee, BU 2022–2023

Boston University: University-wide

- *Member*, Graduate Student Fellow Awards Committee, Rafik B. Hariri Institute for Computing and Computational Science & Engineering 2023

University of Connecticut

- *Advisor / President / Treasurer*, Tarang (South Asian cultural organization), UConn 2015–2018
- *Vice-President*, Statistics Graduate Student Committee, UConn 2016–2017
- *Co-President*, Statistics Graduate Student Committee, UConn 2015–2016
- *Senator*, UConn Graduate Student Senate 2015–2016
- *Student Representative*, Senate Faculty Standards Committee, UConn 2015–2016
